SUMMARY

As a quick learner with a strong foundation in computer programming and a keen interest in database management systems, I am eager to start my career in software development. I aim to contribute to innovative projects while continuously enhancing my skills. My goal is to collaborate with experienced teams to develop efficient, scalable solutions that align with organizational needs and to grow into a proficient software developer through hands-on experience.

WORK EXPERIENCE

Process Associate | Tata Consultancy Services

Sep 2021 - Feb 2023

- Data correction- will Verify and correct addresses using Google and other reliable tools. Ensure accuracy and consistency of all datas. Other than production support to team members to improve performance and give ideas for PI projects(ideas make my work easier).
